Who concerns:

Jean Pierre C, worked at UST for more than two years. Jean began his employment as an entry-level Validation Associate. After a year, he was promoted to Level two Validation Associate. In that position, he reported to me and another client directly, providing immediate response to client requirements and super-efficient reporting.

Jean is a bright and personable individual always searching for areas to improve. He is highly self-motivated and well capable of achieving any goal he sets his mind to as his personal studies and achievements. Our client requesting him as first point of contact to requests solve is an example of that. Jean learned new technologies promptly, applied them and trained our team members in his daily work.

Jean welcomes leadership opportunities and meets the deadlines on time and improved if possible. All companies will be proud of employees like Jean.
